

HR Tech Europe Badge Scanners

Every delegate will have a QR code on their badge with their contact details. Using the HR Tech Europe Mobile App on any smart device (iOS and Android) you can gather valuable delegate information immediately on the spot. You can simply export the data by scanning the code on the badge.

Alternatively, you can rent handy barcode scanners (see picture) from the organizer. Data collected by the device will be captured immediately but collected and sent by the organizer the following week after the event. Rental cost for the devices is €150 / device / 2 days (VAT included). In case of inquiry, please contact Brigi Bósz at brigi@hrneurope.com by 23rd Feb.
